surgically created

Skin problems can arise from the frequent application and removal of stoma

appliances or from

allergic reactions to the products being used.

At times, it can be difficult to ascertain the cause of the allergy or sore skin, and this results in a lengthy process of elimination and a distressing time for the patient (Burch and Sica, 2008). Often

A loop stoma results when a loop (segment) of bowel is brought through the skin on the abdomen to create a diversion for the passage of feces.

There is one stoma with two openings -
