~~The African Writer and the English Language~~

- Writing, Text, and Africa by Simon Battestini (1994). 6.

Conclusion Africa is the cradle of writing for the following facts :

a) Writing originated in the Nile Valley with texts dated back to 3400 B.C., that is, labels in ivory found at Abydos. b) This was the Egyptian script which gave birth to many other scripts still in

Contemporary historians of Africa, archeologists, linguists and others have provided strong evidence that Ancient Egypt's culture grew from sub-Saharan African roots. In fact, from approximately the sixth to the fourth millennia BC, the Saharo-Sahelian peoples far to the south made seminal contributions down the Nile into pre-dynastic Egypt.

Writing African History is an essential work for anyone who wants to write, or even seriously read, African history. It will replace Daniel McCall's classic Africa in Time Perspective as the introduction to African history for the next generation and as a reference for professional historians, interested readers, and anyone who wants to understand how African history is written.

Ancient Africa has the world's oldest and largest collection of ancient writing systems. Evidence of such dates to pre-historic time, and can be found in various regions of the continent. By contrast, continental Europe's oldest writing, Greek, was not fully in use until c. 1400 BC (a clay tablet found in Iklaina, Greece) and is largely derived from an older African script called Proto ...

The Ge'ez script is an abugida that was developed in Horn of Africa in the 8th-9th century BC for writing the Ge'ez language. The script is used today in Ethiopia and Eritrea for Amharic, Tigrinya, and several other languages. It is sometimes called Ethiopic, and is known in Ethiopia as the fidel or abugida (the actual origin of the 21st century linguistic term "abugida" applied to Brahmic ...
