Commissioning Air Systems. Application procedures ... - BSRIA

This new guide now replaces Commissioning Air Systems (AG 3/89.3) and Commissioning of VAV systems in buildings (AG 1/91). It explains how to commission ducted air distribution systems in buildings. The commissioning process mainly comprises the setting to work of the system fans and the regulation (or proportional balancing) of system flow rates.

Commissioning Guide Set (Compak3), BSRIA

In 2010, a requirement for mechanical ventilation air flow rate testing in dwellings was written into the England & Wales Building Regulations. This BSRIA guide was first published in 2013, describing the conditional and unconditional methods of airflow measurement. The 2015 edition also describes a third method, the minimum benchmark method.
