But Wiener's article is a good reminder to nonprofits that as more low-income people are forced by changing economic trends to move from the cities to the suburbs, social service and advocacy infrastructure need to follow; this, alas, has yet to happen. The growth in suburban poverty affects all regions of the country, as Wiener explains:

### Climate Change Resources For Teachers

During a time of dramatic climate change, modern humans (Homo sapiens) evolved in Africa. Like early humans, modern humans gathered and hunted food. They evolved behaviors that helped them respond to the challenges of survival. The first modern humans shared the planet with at least three species of early humans.
