rate throughout the tax

base. As a taxpayer's

tax base increases, the

taxpayer's taxes

increase proportionally.

The marginal tax rate

remains constant and

always equals the

average tax rate. A

common example is a

sales tax.

Introduction to Biology. A change in the sequence of nucleotide bases in the DNA will result in a change in the sequence of the nucleotide bases in the mRNA and this may lead to a change in the sequence of the amino acids in the protein.

This new sequence of amino acids in the protein could affect its function either positively or negatively.
