S1_Physics: Concept Development 4-1

Concept A concept is a general approach to achieving something. Concepts are broad and not concrete. A concept describes WHAT to do, but not exactly HOW. That's where ideas come in. Idea An idea is a way to carry out a concept. A way to put the somewhat vague concept into practice. A concept is like an umbrella under which many ideas can be ...

Concept development 101 - What are concepts and how do you ...

Concept development is the creation of a foundational idea for a design. The term is commonly applied to engineering, architecture, graphic design, customer experience, industrial design and the development of new business models and strategies. Concepts are developed to choose a direction at the beginning of an initiative.

20+ Concept Development Techniques - Simplifiable

In Concept Development, you explicitly teach the students the concept, what it is, the generalization, the big idea. The Concept includes a written, bulletproof definition, along with examples and non-examples (if applicable). The Concept should come from the Learning Objective. It is usually the noun in the Learning Objective:
