

## Confluence Search Engine

Thank you very much for reading **confluence search engine**. As you may know, people have look numerous times for their chosen readings like this confluence search engine, but end up in infectious downloads.

Rather than enjoying a good book with a cup of coffee in the afternoon, instead they juggled with some infectious bugs inside their laptop.

confluence search engine is available in our digital library an online access to it is set as public so you can get it instantly. Our book servers spans in multiple locations, allowing you to get the most less latency time to download any of our books like this one.

Merely said, the confluence search engine is universally compatible with any devices to read

Now that you have a bunch of ebooks waiting to be read, you'll want to build your own ebook library in the cloud. Or if you're ready to purchase a dedicated ebook reader, check out our comparison of Nook versus Kindle before you decide.

### Confluence Search Engine

Search specific fields in Confluence. Confluence data is stored in fields, for example title, label, type and so on. To search for content using a specific field, type the name of that field into the search box followed by a colon (:), and then the term you're looking for. You can use multiple fields in the same query.

### Confluence Search Syntax - Atlassian Documentation

Confluence administrators can adjust the behavior of the Confluence search, and manage the index used by the search. Configuring Indexing Language; Configuring Search; Content Index Administration; Enabling OpenSearch; Rebuilding the Ancestor Table; Setting Up Confluence to Index External Sites; Setting Up an External Search Tool to Index Confluence

### Configuring the Confluence Search and Index - Atlassian

...

Ask the community. Any web crawler can be configured to index Confluence content. If a login is required to view content that will be indexed, you should create a Confluence user specifically for the search crawler to use. Grant this user view rights to all content you wish to index, but deny that user all delete and administration rights.

## **Setting Up an External Search Tool to Index Confluence ...**

Confluence gives you a few ways to find what you're looking for. Here's an overview of Confluence search, and a few tips to help you find things more easily. How Confluence search works. When you enter a search term, Confluence looks for content in all spaces (including personal spaces), pages, mail, personal profiles, and space descriptions.

## **Search - Atlassian Documentation**

Search Confluence from your browser's search field If you're using Firefox or Internet Explorer, you can add your Confluence site as a search provider using the dropdown menu next to the browser's search field. The example below shows the 'Extranet' Confluence site offered for inclusion as a search engine in the browser's search field.

## **Search - Atlassian Documentation**

Note: Confluence will ignore common words ( ), including 'and', 'the', 'or', and more, even if they are included within double quotes. See the default list of stop words used by Confluence's search engine, Lucene, in the Lucene documentation.. For example: Searching for "cheese one" returns only pages in which 'one' appears as the first word after 'cheese'.

## **Confluence Search Syntax - Atlassian Documentation**

The Confluence search result screen ranking does not match the "quick nav" search result ranking. The quick nav ranks purely by page title match, where as the search screen takes into account various things (labels, content etc...). We need to bring these two search results to be consistent,...

## **Who designed the Confluence search engine, and how did**

...

We do know that you can search Confluence content from external search engine using remote API, but what about changing the search engine altogether? What we imagine is when you run search something within Confluence, some other search engine than Lucene is used to look up Confluence content and show the result.

## **Change search engine for Confluence from Lucene to...**

Search engine optimization (SEO) will increase qualified traffic and generate more customer enquiries from the higher traffic. 85% of all traffic comes from search engines. Search Engine Optimization (SEO) isn't the end-all-be-all.

## **Search Engine Optimization (SEO) Marketing - confluence-is.net**

Confluence supports the autodiscovery part of the OpenSearch standard, by supplying an OpenSearch description document. This is an XML file that describes the web interface provided by Confluence's search function. Any client applications that support OpenSearch will be able to add Confluence to their list of search engines.

## **Enabling OpenSearch - Atlassian Documentation**

Can you tweak the Confluence search engine? Martin Moser Dec 12, 2012. Is it possible to tweak Confluence's Lucene Search? Or even replace it? Generally our users are not very happy with it. It works ok as long as the search term is part of the page title or a label, but otherwise the overall impression is that the results are substandard.

## **Can you tweak the Confluence search engine?**

On any site running Confluence if you right-click in the Confluence search box you'll get an option to: Add as a search engine - Chrome; Add Keyword for This Search - Firefox; I suspect there are similar options for IE and Opera as well, but I don't have these browsers at hand to check.

## **Solved: Search confluence through browser extension?**

Our team uses confluence as our enterprise wide knowledge sharing system. It's fine, but the search for Confluence is god

awful. I've talked to people at other firms and they've had similar complaints. The specific question...Is there a plugin for Confluence to change the search algorithm that it's using?

## **Is there a plugin to improve Confluence's search? - Stack**

...

Hi there, how can I configure my confluence space content to expose under google search engine? For example, I got an article "How to setup confluence space". When I enter the key work in google search engine, it should able to list down the article on the google search result.

## **Expose the content in Confluence to Google Search Engine**

The search capability of Confluence is starting to fall behind that offered by many commercial knowledge products. In particular there is no ability in Confluence to specify synonym rings (a ring is a set of terms which have equivalent meaning - a term meaning a word or a phrase).

## **Extend Lucene search engine in Confluence to add support ...**

Search in enterprise applications like Confluence and SharePoint not being as good as commercial search engines is a common complaint we hear from many enterprise customers, especially as these systems grow. Apparently, we are not alone. If you do a Google Search for "Confluence Search Sucks" or "Sharepoint Search Sucks" you will find ...

## **Confluence Search Doesn't Have to Suck - ServiceRocket**

Confluence OnDemand does have a few issues regarding search rank that can be tweaked for a better rank on search engines. Please read more about those methods here. I'm afraid we do not have strict documentation or evidence for search rank in Confluence OnDemand, though. The link in the reply is to this very thread!!
