A Thousand Plateaus continues the work Gilles Deleuze and Félix Guattari began in Anti-Oedipus and has now become established as one of the classic studies of the development of critical theory in the late twentieth century. It occupies an important place at the center of the debate reassessing the works of Freud and Marx, advancing an approach that is neither Freudian nor Marxist but which learns from both to find an entirely new and radical path.

In the final plateau Deleuze and Guattari focus on space. The distinction between smooth and striated space has been operative throughout most of A Thousand Plateaus, especially in the “Geology of Morals” and “Nomadology.” Here, however, it is the primary emphasis, while other concepts developed in other plateaus play a supporting role.

A Thousand Plateaus: Capitalism and Schizophrenia is a 1980 book by the French philosopher Gilles Deleuze and the French psychoanalyst Félix Guattari. It is the second and final volume of their collaborative work Capitalism and Schizophrenia. While the first volume, Anti-Oedipus, sought to "short-circuit" a developing "bureaucracy of analytic reason" in France, this book was intended to be a "positive exercise" in nomadology and rhizomatic philosophy - philosophy with utility that freely ...
