~~Designing High-Density Cities | Taylor & Francis Group~~

high density neighbourhoods. By 2030, it is estimated that 60% of the world's population will live in urban settlements, a large portion of which will be under the age of 18 (UN, 2016). As more families with children chose to live in cities, it is vital for city planners and architects to consider the needs of our youngest citizens in the planning and design of cities.

~~Designing High-Density Cities: For Social and ...~~

This book acknowledges the benefits of high density development, but also focuses on the many challenges of designing these cities from a socio-environmental perspective. Ng has compiled 22 chapters on density in the urban setting, divided into four sections, which explore both the technical and non-technical aspects of planning for high density; the book is thus suitable for academics and ...
