In addition to all the unfortunate factual mistakes, The Encyclopedia of Japanese Pop Culture also holds the dubious distinction of having some of the most error-riddled prose I have ever encountered in a published work. In nearly every essay I found multiple obvious mistakes, some of the most common being omitted particles (a, the) and even incorrect verb tenses.

In various countries excluding countries in East Asia, only a part of the traditional cultures such as 'samurai,' 'geisha,' etc. were known as Japanese culture until recently. However, in and after the 1990s, the number of people having an interest in Japanese modern and popular culture and subculture has also increased in various countries.

Japanese popular culture includes Japanese cinema, cuisine, television programs, anime, manga, video games and music, all of which retain older artistic and literary traditions, and many of their themes and styles of presentation can be traced to traditional art forms. Contemporary forms of popular culture, much like the traditional forms, are not only forms of entertainment but also aspects to distinguish contemporary Japan from the rest of the modern world. There is a large industry of music,
