The engine control module (ECM), also commonly referred to as  
the engine control unit (ECU) or powertrain control module  
(PCM), is one of the most important components found on  
virtually all modern vehicles. It essentially functions as the main  
computer for many of the vehicle's engine performance and  
drivability functions.

## **Symptoms of a Bad or Failing Engine Control Module (ECM ...**

The powertrain control module (PCM), or engine control unit (ECU), is a circuit board computer that stores information pertaining to different areas of your Mazda's engine. If your Mazda's check engine light or another malfunction indicator light illuminates, it is because of a signal the PCM received. The PCM ...
