Structural Engineering and Structural M. Structural Engineering and Structural Mechanics (SESM) is a graduate program within the Department of Civil, Environmental and Architectural Engineering. We teach and perform research on mechanics of solids, mechanics of structures, and structural engineering.

Introduction to STATICS DYNAMICS Chapters 1-10

This data booklet is intended for use by candidates in examinations in Engineering Science at National 5. It may also be used as a reference for assignments at National 4 and National 5. It is recommended that candidates should become familiar with the contents of the data booklet through use in undertaking Units of these Courses.
