~~Toxicity and Metabolism of Industrial Solvents.~~

Ethel Browning née Chadwick (1891–1969) was a British medical researcher who specialised in dietetics and toxicology. She wrote many papers and 12 books, including Toxicity of Industrial Organic Solvents which became the standard reference on the subject. She was appointed as an official inspector of factories from 1940 to 1958 and continued as a consultant into her seventies.

~~Ethel Brownings Toxicity And Metabolism Of Industrial ...~~

This is a large book: it has to be because the subject-matter is large and of vast importance. Dr. Browning, in a difficult undertaking, has assembled? mass of information. Her work has resulted in more than a book of reference to the extensive literature on the chemicals which are used for many purposes: it is a synthesis of many scientific disciplines, and the data are interspersed with...
