Evidence-Based Teaching Strategies | Teaching & Learning ...

An evidence-based practice is an instructional/intervention procedure or set of procedures for which researchers have provided an acceptable level of research that shows the practice produces positive outcomes for children, youth, and/or adults with ASD.

Evidence-Based Practices | Autism PDC

The most effective way to teach concepts and procedures is to implement evidence-based practices (EBPs)—practices and strategies that have been shown to be effective through rigorous research. When teachers implement EBPs along with a standards-based curriculum, they are providing high-quality mathematics instruction.
