Cats who are infected with feline immunodeficiency virus (FIV) may not show symptoms until years after the initial infection occurred. Although the virus is slow-acting, a cat's immune system is severely weakened once the disease takes hold. This makes the cat susceptible to various secondary infections.

As fair Grimalkin, who, though the youngest of the feline family, degenerates not in ferocity from the elder branches of her house, and though inferior in strength, is equal in fierceness to the noble tiger himself, when a little mouse, whom it hath long tormented in sport, escapes from her clutches for a while, frets, scolds, growls, swears; but if the trunk, or box, behind which the mouse ...

Feline - definition of feline by The Free Dictionary

Felidae is a family of mammals in the order Carnivora, colloquially referred to as cats, and constitutes a clade. A member of this family is also called a felid. The term "cat" refers both to felids in general and specifically to the domestic cat (*Felis catus*). Felidae species exhibit the most diverse fur pattern of all terrestrial carnivores. Cats have retractile claws, slender muscular ...
