Financial Accounting For Decision Makers

8th ...

There are three main areas where financial accounting helps decision-making: It provides investors with a baseline of analysis for—and comparison between—the financial health of securities-issuing corporations. It helps creditors assess the solvency, liquidity, and creditworthiness of businesses. ...

Accounting managers play one of the more profit- and growth-focused roles in a company. Persons in this position, also known as managerial accounting, help companies make internal decisions that lead to profitability and growth. An accounting manager performs a few distinct duties to play this important role.
