of the finance industry.

FinTech and the transformation of the financial industry ...

It highlights a recent 'turn to technology', in which advocates of financial inclusion faced with uneven and limited progress of access to finance pin hopes on new financial technologies ('fintech') to remove barriers to access. The chapter situates this development in a longer and contradictory pattern of neoliberal development governance.

Financial Services | SpringerLink

In addition to the traditional financial services world, the competitive landscape of FinTech now includes new start-ups and lateral entrants (Davies et al. 2016), who feature distinctive different corporate cultures than traditional financial services firms (Gomber et al. 2017, p. 540).
