edited by HOWARD S.
KIRSHNER, 560 pp., ill.,
New York, Marcel
Dekker, 1995. \$175.00

The stated goal of this
handbook from a series
edited by William
Kohler is to attempt to
marry multiple
disciplines to help lead
the study of speech
and language disorders
into the 21st century.

The editors and
authors are to be

Neurology is the most visual of the medical specialties, and videos have an ability to illustrate physical signs in a way that cannot be matched by written descriptions. The Manual of Neurological Signs comprises over 900 videos of adults and children with neurologic disorders with sections including: Higher Functions, Movement Disorders,
