Hazzard's geriatric medicine and gerontology Jeffrey B ...

Although geriatric medicine as a specialty was developed and nurtured decades earlier in Great Britain, the publication of the first edition of the Principles of Geriatric Medicine and Gerontology in 1985 served as a catalyst for the development of geriatrics as a scientifically based medical discipline in the United States. The 5 editions published over the next 2 decades firmly established this textbook as a fundamental and well-respected reference for all clinicians caring for older patients.

Hazzard's Geriatric Medicine and Gerontology, Seventh ...

"Hazzard's Geriatric Medicine and Gerontology is the most prominent textbook in our field and we are very proud that so many Michigan Medicine faculty have contributed chapters to this important work." - Dr. Raymond Yung, Director, Geriatrics Center, Chief, Division of Geriatric and Palliative Medicine and Professor of Internal Medicine, Director, Institute of Gerontology, Michigan Medicine.

Immunosenescence refers to changes in the immune system that occur with aging. These changes affect virtually all cell lineages of the immune system, and result in alterations in diverse innate immune responses mediating the earliest interactions of the immune system with pathogens or vaccines, as well as slower onset, highly specific adaptive immune responses in B cells and T cells.
