Results lead to the conclusion that the Spanish competence of the bilinguals from Germany is still incomplete, and influenced by transfer of the majority language (German). Only bilingual children living in Germany show influence of the majority language onto the heritage language, whereas transfer does not operate on the Spanish competence of the bilingual children from Spain.

Aspects of the Phonology of Spanish as a Heritage Language ...

This article brings to light an important variable involved in explaining a type of competence divergence in an instance of bilingual acquisition: heritage speaker (HS) bilingualism. We present results of experiments with European Portuguese (EP) heritage speakers (HSs), showing that they have full morpho-syntactic and semantic competence of inflected infinitives, similar to EP monolinguals.

Language attrition. Jump to navigation Jump to search. Language attrition is the process of losing a native, or first, language. This process is generally caused by both isolation from speakers of the first language and the acquisition and use of a second language, which interferes with the correct production and comprehension of the first.
