## **HBN 15 Facilities for pathology services - gov.uk**

The design contractor is responsible for the design of VA research laboratory and VMU facilities, and any conflicts between standards must be clarified through the project PM/SRE. Note: PG-18-10 VA Design Manuals must continue to be used for design and engineering guidance. VA standards, guides, and manuals may be located in the TIL Catalog.

## **Standards for containment level 3 facilities**

Laboratory housekeeping rules also apply to most facilities and deal with the basic upkeep, tidiness, and maintenance of a safe laboratory. Always keep your

work area(s) tidy and clean. Make sure that all eye wash stations, emergency showers, fire extinguishers, and exits are always unobstructed and accessible.

## **Facilities Design Guide - Argonne National Laboratory**

ISPE has produced the industry's first Guidance Document to establish a baseline for the design of Quality Laboratory Facilities. The ISPE Good Practice Guide: Quality Laboratory Facilities is a comprehensive guide to defining design guidelines for Quality Laboratories supporting GxP-regulated facilities producing pharmaceutical products for human and animal applications.

### **1. Designing of clinical Microbiology laboratories**

for pathology services. It covers laboratory-based facilities in acute hospitals (on-site or stand-alone) and point-of-care testing (POCT) facilities in acute and primary care settings. 1.2 In
