chance the entire float will be traded during the day once the market is open. These are the type of stocks that can run 50-100% in one day.

Online Store Builder - Create an Ecommerce Store with Shopify

A market is a place where people go to buy or sell things. When people have products to sell, they set up a market place. There may be a special building for the market place, or the market may be held in an open space where the sellers can put up a stall (like a kind of tent) and then take the stall down at the end of the day.. The word market can also have a more general meaning in the economy.
