Explain your diagram. ©Modeling Instruction-AMTA 2013 1 U6 - review v1 Because atoms are metallic their weak positive cores allow electrons to leave one atom and travel closer to the positive charge. Both are neutral (3 electrons balances out the positive core). If both are neutral then there's no force of attraction or repulsion.

It is estimated that Modeling teachers reach more than 100,000 students each year. The American Modeling Teachers Association (AMTA) was created by teachers to continue and expand the mission after government funding for Modeling Instruction(TM) ended. The AMTA has expanded to a nationwide community of teachers dedicated to addressing the ...
