ILCOR will review over 250 studies and publish specific resuscitation recommendations. The AHA and ERC may adopt these recommendations as guidelines, which may affect how responders are trained in CPR and AED use. What are some of the topics that these Guidelines may address? Guidelines are confidential until October 18th.

Are you ready for new CPR Guidelines? - Cardiac Science

To achieve the best compression rate and decrease the frequency of compression interruptions, the AHA's new guidelines instruct practitioners to adopt a universal compression-ventilation ratio of 30:2 for all one-rescuer or two-rescuer CPR for adults. Experts believe
