The Nikon D4 is aimed at sports and action photographers and photojournalists. With a continuous shooting rate of 10fps, a 20-second burst would yield 200 full-resolution images with full metering and autofocus for each frame. If exposure and focus are locked, the shooting rate can be increased to 11fps.

Shooting menu settings are stored in four banks (A, B, C, and D). To store a particular combination of frequently-used settings, select a bank using the Shooting menu bank option in the shooting menu and set the camera to the desired settings. The new settings will be restored the next time the bank is selected. With some exceptions,

When shooting in situations that are sensitive to the sounds of a camera shutter, the D4 live view feature offers two solutions. The quiet mode keeps the mirror in the up position. When using the silent mode, the mirror remains up and the shutter remains open, which can be useful during events such as concerts and conferences.
