Ocean of Storms by Christopher Mari and Jeremy K. Brown is a so-so science fiction novel. An explosion on the moon causes an EMP that affects all of the earth. A deep fissure is now on the Moon's Ocean of Storms and it is believed that an alien ship long buried on the moon has caused the event.

Ocean of Storms by Christopher Mari - Goodreads

CREDIT: Japan's National Institute of Advanced Industrial Science and Technology. The largest dark spot on the Moon, known as the Ocean of Storms, is more than 1,800 miles wide and may be a scar from a giant cosmic impact, researchers say. The near side of the Moon is quite different from the far side. Widespread plains of volcanic rock called "maria" (Latin for seas) cover nearly a third of the near side, but the far side has only a few maria.

An ocean storm may refer to any storm in the ocean, but most commonly refers to cyclonic systems that begin or gain strength at sea. These storms get the most attention when they come in the form of tropical cyclones, but these cyclones represent just one portion of the ocean storm systems in the world.

What is an Ocean Storm? (with pictures)

Ocean of Storms centers on a mysterious EMP that briefly knocks out power across the earth. It's discovered that the pulse originated from a device buried beneath the surface of the moon. This spurs a space race between the United States and China to get to the source. The story started out feeling very much like the movie Armageddon to me.

Hurricane Laura, seen here by GOES EAST on August, 27, 2020, at 2 A.M. ET. From August 27-31, the National Geodetic Survey (NGS) collected aerial damage assessment images in the aftermath of Hurricane Laura. Imagery was collected in specific areas identified by NOAA in coordination with FEMA and ...

Hurricane Laura Damage Assessment Imagery

Oceans of Storms is a killer collaboration or out -- out -- out there jazz and experimental sound. There's an underlying lyric quality that brings on the same kind of visceral response I got when reading Humans Need Three Hands, which miraculously features a character a lot like Henry Kaiser himself.
