Phantasy Ideas In Psychoanalysis

Phantasy adds not only pleasure and emotional resonance but also fear and anxiety to everyday experience, and as such is a defining characteristic of what it means to be human. It is an essential - and contentiously debated - idea in psychoanalysis, punctuating the dialogue between ourselves and a world that we are forced both to live in, and live through.

Object relations theory is a variation of psychoanalytic theory. It places less emphasis on biological based drives and more importance on interpersonal relationships (e.g. the intimacy and nurturing of the mother). In object-relations theory, objects are usually persons, parts of persons (such as the mother's breast),
