Earth Science, 11e

1.4 Earth System Science Earth system science aims to understand Earth as a system made up of interacting parts, or subsystems. A system can be any size group of interacting parts that form a complex whole. • In a closed system, matter does not enter or leave the system. • In an open system, energy and matter flow into and out of the system.

earth science chapter 7 prentice hall Flashcards and Study ...

Earth's Major Roles 9.2 Plate Tectonics According to the plate tectonics theory, the uppermost mantle, along with the overlying crust, behaves as a strong, rigid layer. This layer is known as the lithosphere. • A plate is one of numerous rigid sections of the lithosphere that move as a unit over the material of the asthenosphere.
