Thinking out of the box is in the DNA at C&R Interiors. U30 Series brings a breath of fresh air into the office seating sector by trying out something new. With solutions that reinvent how we sit in the office in a refreshing different way.

C.C. Designs Rubber Stamps

C (/ s i: /, as in the letter c) is a general-purpose, procedural computer programming language supporting structured programming, lexical variable scope, and recursion, with a static type system. By design, C provides constructs that map efficiently to typical machine instructions. It has found lasting use in applications previously coded in assembly language.
