Here is an updated version of the \$domain website which many of our East European book trade customers have been using for some time now, more or less regularly. We have just introduced certain upgrades and changes which should be interesting for you. Please remember that our website does not replace publisher websites, there would be no point in duplicating the information. Our idea is to present you with tools that might be useful in your work with individual, institutional and corporate customers. Many of the features have been introduced at specific requests from some of you. Others are still at preparatory stage and will be implemented soon.

When fluid starts coming out of the fill plug, you know you are good to go. Go back to the top of the car and remove the reverse sensor and put it somewhere safe. Use a long funnel and fill the tranny with the new fluid. I used just under 3 full bottles of Redline MT90 before I had fluid come out of the "fill" plug.
