Instructions for installation and operation of the ...

The Sharples Super Centrifuge is a machine for applying centrifugal force to a liquid. The rotor, called a bowl, has an opening in the bottom to allow the liquid to enter, and openings in the top of the bowl to allow the fluid or fluids to discharge. The fluid entering the rotating bowl is caused to rotate with the bowl.

Sharples Super Centrifuges - Separation Equipment Sales, Inc.

The Super centrifuge is a vertical high speed tubular bowl centrifuge, generating centrifugal force up to 20000 times the force of gravity. It is used either for continuous separation of two immiscible liquids having different specific gravities or for batch-wise clarification / polishing of liquids containing fine insoluble solids.
