This Student Solutions Manual contains solutions to the odd-numbered exercises in the text Introduction to Differential Equations And Dynamical Systems by Stephen L. Campbell and Richard Haberman. To master the concepts in a mathematics text the students must solve problems which sometimes may be challenging.

As for the solution manual itself it is pretty standard. It has the solutions to the odd problems. It walks you through the steps, and thankfully, unlike many solution manuals does not skip a lot of steps. When they do, it is something that is really basic that a student taking differential equations should be able to
