Robert Dick (flutist) - Wikipedia

In the performance itself it is very important, particularly in the works of J S Bach, to display the "architecture" of the piece, especially in his organ preludes and fugues, many of which are constructed in the form of an arch with side pillars at beginning and end, curves and a keystone at the top,...

Flute Books | School of Music

The flute has three main parts: the mouthpiece, the body and the tail. The mouthpiece hole is where the player blows air to produce sound. The other holes of the flute were replaced with keys by Theobald Boehm in the 17th century. With the help of special keys or foot joints, the flute is capable of playing a range of over three octaves. Alley Oop
