I have personally supplemented my Rack workout using body weights. Once you are into your Rack routine, you might also find this very beneficial to gaining muscle mass. However, I would not suggest this to those who are just starting out on the Rack. Get used to the Rack first, and get your routines down.

1. I don't like doing arm curls and squats. I feel although they are doable you can get just as good of a workout with 15lbs dumbbells which equal to 30lb same as the rack and they are easier to manage and change up on. (you can use the dumbbells with the videos and the rack like a p90x thing but with the rack and dumbbells) 2.
