**Framing Theory** The concept of framing is related to the agenda-setting tradition but expands the research by focusing on the essence of the issues at hand rather than on a particular topic. The basis of framing theory is that the media focuses attention on certain events and then places them within a field of meaning.

### **The Five-Question Method For Framing A Qualitative ...**

In framing research, a common starting point is to draw a distinction between two different notions of framing: frames in communication and frames in thought (Scheufele 1999, Druckman 2001). Frames in communication refer to the way a speaker uses words, images, elements of an event, etc. to

relay information.

### **Studying Framing Effects: Existing Research and Lingering ...**

In the social sciences, framing comprises a set of concepts and theoretical perspectives on how individuals, groups, and societies, organize, perceive, and communicate about reality . Framing can manifest in thought or interpersonal communication. Frames in thought consist of the mental representations, interpretations, and simplifications of reality.
