The TI-84 Plus is a graphing calculator made by Texas Instruments which was released in early 2004. There is no original TI-84, only the TI-84 Plus and TI-84 Plus Silver Edition models. The TI-84 Plus is an enhanced version of the TI-83 Plus. The key-by-key correspondence is relatively the same, but the 84 features some improved hardware. The archive is about 3 times as large, and CPU about 2.5 times as fast. A USB port and built-in clock functionality were also added. The USB port on the TI-84

Basics On Programing Ti-83/Ti-84

When you execute a program, the TI 84 Plus CE performs each instruction on each command line in the same order in which you entered them. The number and size of programs that the TI 84 Plus CE can store is limited only by available memory. To create a program, simply enter command lines using the Program Editor. The program will run from the Home Screen
