An exceptionally biased book. The author is flagrantly anti-police and a socialist. His presumptions are evidenced by his choice of words; "police brutality" rather than "excessive force" for example. He also lumps all police into the "brutal" grouping. Very little was presented about why people commit crimes or...

This brief presentation of the four major theoretical perspectives in sociology is necessarily incomplete but should at least outline their basic points. Each perspective has its proponents, and each has its detractors. All four offer a lot of truth, and all four oversimplify and make other mistakes.
