### **Togaf 9 template solution concept diagram - SlideShare**

The TOGAF content framework defines a set of architecture diagrams to be created (e.g., organization chart). Each of these diagrams may be created several times for an architecture with different style or content coverage to suit stakeholder concerns.

### **The TOGAF Standard, Version 9.2 - Architectural Artifacts**

Enterprise Continuum. TOGAF includes the concept of the Enterprise Continuum, which sets the broader context for an architect and explains how generic solutions can be leveraged and specialized in order to support the requirements of an individual organization.

### **The Open Group Architecture Framework (TOGAF) - Core Concepts**

TOGAF defines three distinct artifact classes: Catalogs are lists of building blocks. Matrices show the relationships between building blocks of specific types. Diagrams present building blocks plus their relationships and interconnections in a graphical way that supports effective stakeholder communication.
